## Insect Log

**Make new friends while getting to know your  
human, plant and animal neighbours!**

a place of mind

ubcbotanicalgarden  
& centre for plant research

Use this log to record the insects and other backyard critters you find in your neighbourhood.

**When looking at a new critter, pay attention to:**

- The number of legs
- The number of body parts
- The body shape
- The number of antennae
- The number and type of wings
- The mouthparts
- Where it was found

**Where are the best spots in your neighbourhood to find insects and critters?**

**Explore UBC's campus!**

**Keep a list of your favourite spots:**
